DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The use of the term "directly" in the current claims is not found in the specification as originally filed. There is no definition for what "directly" covers with respect to patterning the layer, and as such, the prior art relied upon by the Examiner in the previous office action is still applicable. A reasonable definition, with appropriate basis in the original specification, needs to be inserted in the current specification to provide guidance to one of skill in the art, and potentially overcome the prior art rejections as well.

Claim Rejections - 35 USC § 102

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-37 are rejected under 35 U.S.C. 102(e) as being anticipated by either one of Resnick et al. or Mancini et al.

The Examiner relies on the rejection of record made in paragraph 3 of the previous office action. The amendments to the claims, and the comments attached to the amendments, have been carefully considered. However, since the scope of the claims is in doubt as to the definition of "directly", the prior art rejection is being maintained. A review of the relied upon prior art shows that the patterned layers are directly patterned, even if they are over-coated with a mask. When the etching is performed, this is a type of direct patterning within the unclear scope of the current claims.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
